

Spectrum sketch sheet (one per student)

Look at each source through the diffraction glasses and **draw what you see** across the bar: a smooth rainbow from a hot filament, a broad colored band from a white LED, or separate bright lines from a neon or gas source. Then match each source to its clue card. Do not view the sun directly.

Source 1: _____

violet

red

Band or lines? (circle): smooth rainbow · broad band · separate lines

My match: _____

Source 2: _____

violet

red

Band or lines? (circle): smooth rainbow · broad band · separate lines

My match: _____
