

Plant profile cards

Each card says what one plant needs. Match it to the greenhouse zone whose tour readings fit, then defend the placement with a clue from the tour.

Fern

TEMP

cool to warm, 16 to 24 °C
(60 to 75 °F)

HUMIDITY

high, 50% or more; likes damp air

LIGHT

shade or bright indirect; never direct sun

WANTS

Damp air and shade, like a forest floor.

AVOID

Direct sun and dry air crisp the fronds.

Moth orchid

TEMP

warm, 24 to 29 °C (75 to 85 °F) by day, above 16 °C (60 °F) at night

HUMIDITY

humid, 50 to 80%, with some air movement

LIGHT

medium; bright but filtered, no direct beam

WANTS

Warm, humid air and bright, filtered light.

AVOID

Full direct sun scorches the leaves (the orchid-loves-sun myth).

Cactus

TEMP

warm days, big day-to-night swing, 24 to 34 °C (75 to 90 °F)

HUMIDITY

low; dry air and fast-draining soil

LIGHT

very high; full, direct sun

WANTS

Hot, bright, dry air like a desert shelf.

AVOID

Damp, shady air rots the roots.

How to read a card

The thick black bar on each scale is the plant's happy range.

TEMP

10 to 40 °C.

HUMIDITY

0 to 100%.

LIGHT

shade on the left to full sun on the right. A plant in the wrong zone tells you how it suffers: too dry wilts, too bright scorches, too damp molds.

Control dial board

Set each dial for the plant you are placing, then record where each plant goes and the tour clue that backs it.

Placements: defend each one with a tour clue

PLANT	ZONE YOU CHOSE	TEMP	HUMIDITY	LIGHT	TOUR CLUE THAT SUPPORTS IT
Fern					
Moth orchid					
Cactus					

Tour clue sheet

As you tour, record what you see, feel, and hear for each zone: warm or cool, damp or dry, bright or shaded, plus any reading the docent points out. Back at the table this is your evidence for matching plants to zones.

GREENHOUSE ZONE	TEMPERATURE	HUMIDITY (DAMP/DRY)	LIGHT (SHADE/BRIGHT)	WHAT THE DOCENT SAID / EVIDENCE
Main greenhouse				
Hoop house				
Shaded bench				
Bright bench				

Tip: you do not need exact numbers. "Warmer and more humid than the hoop house" is good evidence. Use the control-system or weather-station readout if the docent shows one.
