

Heart-rate recovery log (one per team)

Count heartbeats for 15 seconds and multiply by 4 to get beats per minute (bpm). With the person's consent, record a resting rate, then a rate right after one minute of light activity, then watch it recover. A faster drop back toward rest means better fitness. Fill both trials, then plot the points and connect them.

WHEN	TRIAL 1 COUNT (15 S)	TRIAL 2 COUNT (15 S)	BEATS PER MINUTE
Resting (sit calm for 1 min)			
Right after 1 min of activity			
Recovery at 1 minute			
Recovery at 2 minutes			
Recovery at 3 minutes
